

# Irakli Janiashvili

## Full-stack Software Engineer

Hey, I'm Irakli, Software Engineer from Tbilisi, Georgia. I have 7 years of experience working on scalable apps for EU, US and Georgian companies On-Site and Remotely. Looking forward to joining a team of talented people.

## Work History

### Shogun (YC W18)

<https://getshogun.com>

Software Engineer · Remote · San Francisco, US · August 2017 – July 2019

I joined Shogun as one of the first engineer and during my time in the company I had an opportunity to work on many core feature implementations. Shogun was accepted to the "YCombinator W18" and become a successful company.

React.js   Typescript   Ruby on Rails   GraphQL   Postgres   MongoDB

### Digital Clipboard (Microsoft Scale-Up London)

<https://digitalclipboard.com>

Software Engineer · Remote · London, UK · January 2015 – July 2017

While working at Digital Clipboard I led the creation of a scalable multi-platform frontend project with React Native and smart data synchronization layer. Digital Clipboard launched under "Microsoft Scale-Up London" accelerator.

React native   iOS   Flow   Cordova   Angular   Node.js   Postgres

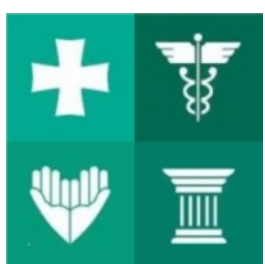

### Spacelab

<https://spacelab.ge>

Co-founder · On-site · Tbilisi, Georgia · August 2013 – ∞

Spacelab is a digital agency that I co-founded in Tbilisi, Georgia. We connect to clients all over the world offering mobile/web app development and UI/UX design work. We've been lucky to work on numerous interesting projects as a team.

React.js   D3   React Native   iOS   Ruby on Rails   Postgres

### Ministry of Labour, Health and Social Affairs of Georgia

<https://moh.gov.ge>

Software Engineer · On-site · Tbilisi, Georgia · August 2012 – July 2013

My team was accountable to implement digital solutions for the ongoing Health Insurance reform to provide free health care for citizens of Georgia. I enhanced existing reporting tools and wrote software to process terabytes of streaming data.

C#   ASP.MVC   MSSQL   EventStore   Apache Hadoop

## Education

### Georgian Technical University

Bachelor of Computer Science · Tbilisi, Georgia · September 2014 – July 2019
